

How to access Cleaning related Risk and COSHH Assessments

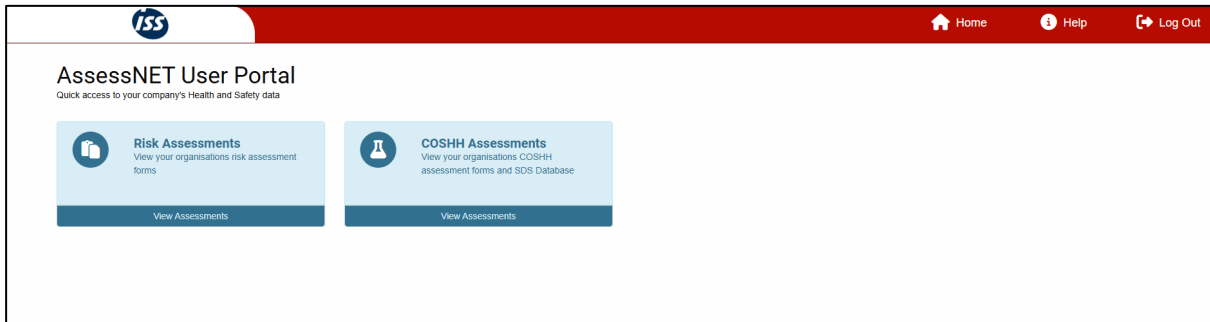

Dear ISS Placemaker,

We are pleased to introduce a new system for accessing essential Health and Safety documents directly from your mobile device. Simply scan the QR code with your smartphone camera and follow the instructions below to access a digital library of essential information, including Risk Assessments and Control of Substances Hazardous to Health (COSHH) Assessments. The library ensures you have immediate access to the latest, most accurate information needed to maintain a safe work environment. Please be assured that there are no restricted access requirements for these documents; the QR code is specifically designed to provide easy and open access for all ISS Placemakers.

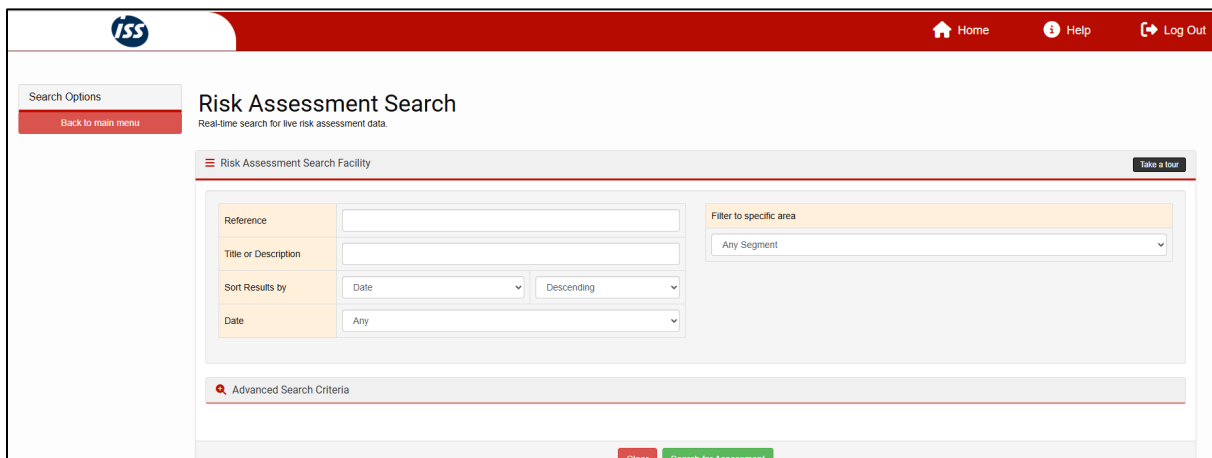

1. Scan the QR code with your device

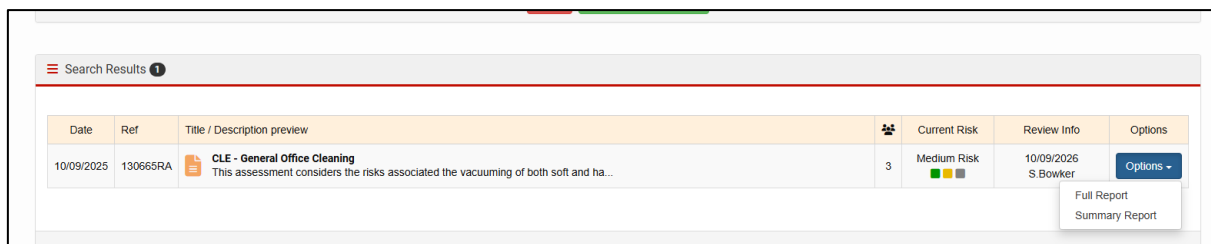

2. Select either Risk Assessment or COSHH assessment

3. This will take you to the following search screen. 'Click' search for assessment, this will then take you to the assessments that are available

4. 'Click' on Options and 'full report' to view the assessment

CHANGE LOG

Date of Change	Author of Changes - Name and a Job Title	Short Summary of Changes
